DETAILED ACTION

Status of Claims

1. This action is in reply to the Arguments/Remarks filed on June 22, 2009.
2. Claims 1-53 are currently pending and have been examined.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1-53 are rejected under U.S.C. 103(a) as being unpatentable over Walker, U.S. Patent Application No. 2002/0193162 in view of Nguyen, US Patent Application No. 2005/0043094, in view of Hopkins, US Patent Application No. 2002/0129282.

Claims 1, 19, 34, 43:

Walker, as shown, discloses the following limitations:

- establishing a tournament (tournament) having a plurality of rounds (rounds), each round enabling the user to play a game provided by a game server (central controller 102) on the user's communication

device (personal computer) through the tournament scheme of play (see at least paragraph 5, 25, 96);

- the game server (central controller 102) being in communication with the communication devices (personal computers) within the network, the game server having a database (tournament database) for recording each game played by the user and a user identification (user ID) identifying the user (see at least paragraph 20)
- the user progressing to a next round (round) upon exceeding a threshold score (threshold) established for the round (see at least paragraphs 44, 98, 99, 175);

Walker discloses the limitations as shown. Walker does not directly disclose the following, but Nguyen does:

- determining a fee to the user for playing each game in the tournament, the fee associated with playing a single game within the tournament (paragraph 183)

It would have been obvious to one of ordinary skill in the art at the time of the invention to modify Walker to include the per game fee of Nguyen since this allows for determining royalties to be paid on a per game basis. .

Walker discloses the limitations as shown. Walker does not directly disclose the following, but Hopkins does:

- sending the determined fee from the game server to the network provider (paragraph 78);
- transferring a portion of the revenue collected by the network provider to the game provider (content provider) based upon playing each game (paragraph 78);

It would have been obvious to one of ordinary skill in the art at the time of the invention to modify Walker to include the per game fee of Hopkins since this allows for revenue sharing with the game provider.

Claims 2-8, 22-25, 35-38, 46-49:

Walker, as shown, discloses the following limitations:

- threshold (see at least paragraphs 44, 98, 99, 175);
- next round (see at least paragraphs 44, 98, 99).

Claims 9, 10, 20, 21, 39, 44, 45:

Walker, as shown, discloses the following limitations:

- fee per game (see at least paragraphs 86, 104, 106, 113);
- elapsed time (see at least paragraph 20).

Claims 16, 30, 40, 50:

Walker, as shown, discloses the following limitations:

- communication protocol (see at least paragraph 36).

Claims 32, 52:

Walker, as shown, discloses the following limitations:

- advertising fees charged (see at least paragraph 5).

Claims 18, 31, 42, 51:

Walker, as shown, discloses the following limitations:

- points acknowledging ad (see at least paragraphs 112, 185).

Claims 17, 33, 41, 53:

Walker, as shown, discloses the following limitations:

- winner and prize (see at least paragraphs 49, 176).

Claims 11, 12, 13, 26, 27:

Walker, as shown, discloses the following limitations:

- billing user (see at least paragraphs 49, 176);
- user id (see at least paragraph 20).

Claims 14, 15, 28, 29:

Walker, as shown, discloses the following limitations:

- wireless and ISP (see at least paragraphs 25).

Response to Arguments

5. Applicant's arguments with respect to claims 1-53 have been considered but are moot in view of the new grounds of rejection.
